

VIOSO Nano 6

All-in-one content playback, warping and edge blending solution

- All-in-one solution Content playback, warping and edge blending from one box
- Compact and powerful Small footprint about the size of a sheet of paper
- Multi-channel 4 video outputs for connection of display devices
- Simple to use Supports USB camera for autoblending of projectors

The VIOSO Nano 6 has a small footprint, about the size of a sheet of paper, but incorporates a highly powerful feature set including Intel i5 processor and NVIDIA QUADRO graphics. It is ideal for a multi-projector installation where powerful edge-blending, warping and content playback are required from one compact package.

The VIOSO Nano 6 features mini-display port output connectors. Adapters are available from third party providers and are not included as standard.
