

BE Free6

Truly Wireless Earbuds

NU FORCE

Bring sound to **life.**

Experience next-level personal audio with the Optoma NuForce BE Free6 truly wireless earbuds. Combining a comfortable fit with the latest Bluetooth 5.0 technology, IPX5 water-resistance and incredible battery life, the BE Free6 delivers truly wireless audiophile sound, whether it's a quiet commute, intense work out, captivating podcasts or conference calls.

Features:

- **Audiophile sound:** Hear crisp and clear audio with deep bass thanks to dynamic graphene drivers while AAC audio codec support enables superior sound quality and low latency for pure audiophile-grade sound.
- **Incredible battery life:** Enjoy 6 hours battery life with the NuForce BE Free6. The included charging case provides four complete charges for 24 total hours of music, videos and calls. Fast charge technology provides over an hour of listen time after a quick 15-minute charge.
- **Enhanced microphone:** An omnidirectional microphone with Real Clear Voice technology captures your voice and reduces wind noise for crystal clear voice conversations. The new discrete mode transforms the right earbud into a hand-held microphone that captures low tones for discrete conversations in public places.
- **Stable connection:** Bluetooth 5.0 technology provides greater dependability with increased connection stability and range for interruption-free audio enjoyment.
- **Flexible connectivity:** Connect each earbud directly to different devices, whether you need to share an ear bud with a friend or use two different devices simultaneously. The NuForce BE Free6's dual independent audio support provides the ultimate connection flexibility.
