

PRODESIGN

TECHNICAL CONSULTANCY SERVICES

Consultation. Design. Support.

WE'RE HERE FOR YOU

At Optoma we benchmark our success on the outcome of our customers' projects, not the products themselves.

We recognize the demand for complete support on all aspects of your commercial display systems. Out of this knowledge, ProDesign technical consultancy services was created to support you with every part of your project.

Whether an AV newcomer or technology veteran, our dedicated in-house sales and technical teams will be with you every step of the way, from the initial design and planning through to purchase and beyond.

YOUR
JOURNEY
STARTS

THE PRODESIGN PROCESS

CONSULTATION

Initial engagement

Choose a convenient time for a telephone or in-person conversation and show us the space you wish to transform.

Tell us your ideas and wants, in return, we will identify challenges and opportunities to deliver valuable solutions all within your determined budget.

Consultation is available for:

- Single projector installations including domes and curved screens
- Multiple projector edge blending projects
- Immersive spaces

Marketing / Case Studies

The Optoma in-house creative team lives and breathes technology; they especially like to capture it in its greatest glory!

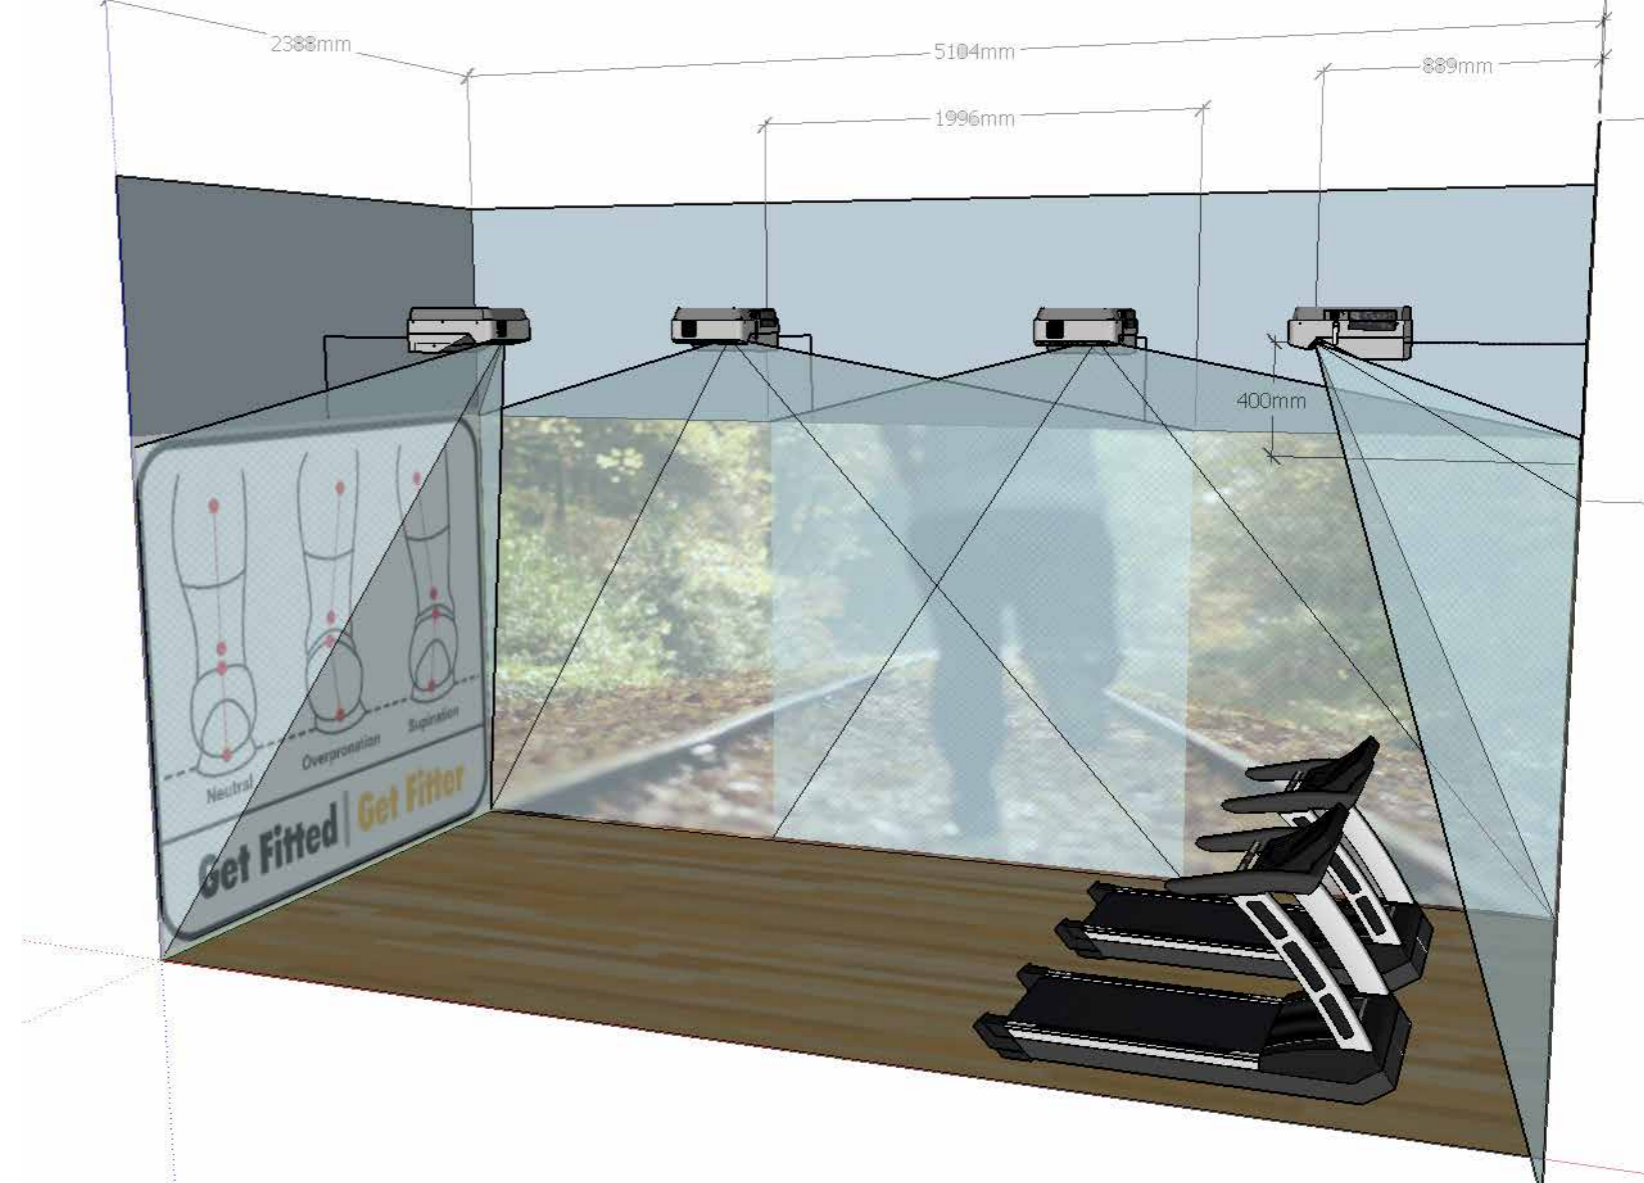

All they need is some dates in the diary to come along and find out more about the project and document it for use online to get your story out there to everyone.

DESIGN

Drawings

We can provide you with all the technical documentation you need, including inspecting floorplans and replicating the environment in 2D/3D CAD software to create stills of your project.

SUPPORT

Remote and on-site support

We offer virtual and on-site support to ensure our displays meet your expectations.

Training

Learn everything you need to know about installing, operating and maintaining your Optoma products with free online training and technical support.

Logistics

Trust that you're getting an excellent standard of quality with pre-checked solutions both factory side and within North America.

Warranties

Repair and replace warranty with extended warranties available.
